SUMMARY

Senior Software Quality Assurance Specialist with **4+ years of experience** building robust, scalable testing strategies across web, mobile, and API platforms. Combines strong manual-testing fundamentals with end-to-end automation to help engineering teams ship reliable software, faster — improving defect identification by **30%**, cutting release cycles by **20%**, and reducing production defects by **25%** through CI/CD-integrated test automation. Experienced leading and mentoring junior QA engineers across a diverse portfolio of ride-hailing, fintech, and consumer products. Recipient of the "Excellence in Quality Assurance" award and an internal Hackathon win.

CORE SKILLS

Automation & Frameworks: Selenium WebDriver, Cypress, Playwright, C#, NUnit, MSTest, xUnit

API & Security Testing: Postman, API Testing, Swagger, Burp Suite, OWASP ZAP

Manual & Functional QA: Manual, Functional, Regression & Black-box Testing, Root Cause Analysis, SaaS Testing

Tools & Delivery: Azure DevOps, JIRA, Docker, GitHub, CI/CD, Agile/Kanban

Dev Fundamentals: JavaScript, HTML/CSS, SQL Server, MySQL

EXPERIENCE

Senior Software Quality Assurance Specialist · Absoluit

Sep 2023 – Present

Islamabad, Pakistan · On-site · Full-time

- Architect and execute comprehensive test strategies — functional, regression, performance — across web and mobile platforms, improving defect identification by 30%.
- Integrate automated test suites into CI/CD pipelines, reducing release cycles by 20% and enabling continuous quality validation with every deployment.
- Build and maintain automated API test cases using Postman and Selenium, cutting manual testing overhead.
- Lead and mentor a team of 3 junior testers, overseeing delivery of 10+ high-quality releases.
- Partner closely with developers on shift-left testing and proactive quality advocacy, reducing production defects by 25%.
- Recipient of the "Excellence in Quality Assurance" award and an internal Hackathon win for measurable business impact (2024).

Junior Software Quality Assurance Engineer · Absoluit

Aug 2022 – Aug 2023

Islamabad, Pakistan · On-site · Full-time

- Executed manual and functional test cases across web and mobile platforms, ensuring alignment with product requirements.
- Performed API testing with Postman and assisted in automating test cases with Selenium WebDriver.
- Logged and tracked defects using Azure DevOps and JIRA, collaborating closely with developers through the bug lifecycle.

Software Quality Assurance Analyst · siParadigm

Jan 2022 – Jun 2022

- Designed and executed manual test cases for web applications, aligned to business requirements.
- Developed automated test scripts using Selenium WebDriver and performed API testing with Postman.

QA Engineer · Enabling Systems · Internship

Apr 2021 – Oct 2021

Rawalpindi, Punjab, Pakistan

- Built foundational manual-testing skills on live product features, starting a career in software quality.

SELECTED PROJECTS

Cabsoluit Booking
ANDROID · IOS · RIDE-HAILING
White-label ride-booking app. Tested bookings, real-time tracking, routing, fares, payments, tenant branding.

Vao — Book a Ride
ANDROID · IOS · RIDE-HAILING
White-label deployment of the Cabsoluit platform; validated booking flows and tenant branding.

Supbotive
ANDROID · IOS · CUSTOMER SUPPORT
Verified real-time chat, unified inbox, multimedia sharing, offline caching, push notifications.

TestHub
INTERNAL TOOL · TEST MANAGEMENT
Internally built test-case management platform. Validated project organization, hierarchical suites, and execution workflows.

Cabsoluit Driver
ANDROID · RIDE-HAILING
Driver-side app QA: ride requests, dispatch logic, trip lifecycle, maps, fares, earnings tracking.

CoParents Connect
ANDROID · IOS · FAMILY TECH
Tested shared calendars, custody planning, secure messaging, notifications, subscriptions.

Vibranta Connect
FLUTTER · ESIM
Covered onboarding, account security, device compatibility, eSIM purchase/top-up, social sign-in.

CERTIFICATIONS

Software Testing Foundations: Integrating AI into the Quality Process — LinkedIn Learning

Learning Playwright — LinkedIn Learning

AI for Software Testers — LinkedIn Learning, 2026

Postman Essential Training — LinkedIn Learning

Software Testing Foundations: Transitioning from Manual to Automation — LinkedIn Learning, 2026

EDUCATION

B.S. Information Technology GPA 3.5 / 4.0
Bahauddin Zakariya University, Multan
Graduated 2022 · Executive Member, Technical Societies (2019 – 2020)
